

BENNON

EXPERIENCE OF EXPERTS

TECHNICAL DESCRIPTION

PRODUCT NAME:	OP2000 PROFI CARE
TYPE:	top nubuck
USAGE:	for shoe care, impregnation
SAFETY:	it is not dangerous, after one-time application has not the irritant effect for the skin, in long-term exposition can irritate and degrease the skin.
COMPOSITION:	mixture of the natural and synthetic oils, polymer binders, emulgators, FC-resin, alcohol and water.
ARRANGEMENT FOR EXTINGUISH:	non-flammable
STORAGE:	between 5 °C – 40 °C, product cannot be exposed to shine or frost (the preparation on the water base)
PHYSICAL AND CHEMICAL CHARAKTERISTICS:	
-state:	liquid
-colour:	milky white
-odour:	light, after inputs

BENNON

EXPERIENCE OF EXPERTS

-explosiveness:	non-explosive
-flammability:	non-flammable
-oxidation characteristics:	none
-density:	0,97 kg/dm ³
-solubility in water:	miscible
-organic dissolving agents:	< 3%
